IDENTIFIKASI

KEYWORDS

- ✓ Keywords are significant words (usually nouns or noun phrases) which can be used as search terms in online catalogues or databases.
- ✓ They can appear in the title, subject headings, abstract, or text of records.
- ✓ A keyword search typically searches all or most of these fields

MEMBINA SEARCH STRING

Selepas mengenal pasti *keywords*, kini anda perlu membina *search string/query string* berdasarkan teknik pencarian bahan bacaan di pangkalan data:

- *Phrase Searching*
- *Wild card*
- *Truncation*
- *Boolean Operator*

Scopus®

WEB OF SCIENCE™

1. Phrase Searching

Exact matches on words within a phrase search (with double quotes) get a higher relevancy boost over the same words in non-phrase searches (without double quotes).

Example:

- “creative thinking”
- “innovation culture”
- “John smith”

The screenshot shows a web browser window with several tabs open. The active tab is titled "Scopus - Document search result". The URL in the address bar is <https://www-scopus-com.ezplib.ukm.my/results/results.uri?sort=plf-f&src=s&sid=02bcd88993e64343471&sot=a&sdt=a&sl=34&s=TITLE-ABS-KEY%28creative thinking%29>. The main content area displays "4,185 document results" for the search term "TITLE-ABS-KEY ("creative thinking")".

On the left, there are filters for "Search within results...", "Refine results" (with "Limit to" and "Exclude" buttons), "Access type" (with "Open Access" and "Other" options), and "Year" (with "2019" and "2018" options). On the right, the search results are listed in a table with columns: "Document title", "Authors", "Year", "Source", and "Cited by". The first two results are shown:

Document title	Authors	Year	Source	Cited by
Mind-wandering as creative thinking: neural, psychological, and theoretical considerations	Fox, K.C., Beaty, R.E.	2019	Current Opinion in Behavioral Sciences 27, pp. 123-130	0
Creativity in and out of (cognitive) control	Chrysikou, E.G.	2019	Current Opinion in Behavioral Sciences 27, pp. 94-99	0

At the bottom of the page, there is a navigation bar with icons for Windows, Search, Task View, File Explorer, Edge, Google Chrome, Word, and PowerPoint. The status bar at the bottom right shows the date and time: "4/3/2019 4:37 PM" and "ENG".

2. Truncation

Truncation

Meletakkan simbol sama ada **asterisk (*)**, **question mark (?)** atau **dollar sign (\$)** di hujung perkataan

Fungsi ini membolehkan pencarian beberapa perkataan berkaitan dijalankan secara serentak

Contoh

gene\$

akan mencari mana-mana artikel yang mengandungi perkataan yang berkaitan dengan
ügene, genes, genetic.

Adapt*

akan mencari mana-mana artikel yang mengandungi perkataan yang berkaitan dengan

Adaptation, adapts, adapted, adapting

TIPS

Sekiranya perkataan mengandungi kata kerja

CTH – adaptation

Maka tukarkan ia kepada kepada kata akar

CTH – adaptation tukar kepada adapt, dan kemudian letakkan symbol yang sepatutnya di hujung perkataan

3. Wildcard

Mencari kepelbagaian ejaan singular/ plural dan ejaan American/ British

Fungsi ini memerlukan penulis untuk meletakkan simbol - sama ada **question mark (?)**, **pound/hatch symbol (#)** atau**asterisk (*)**.

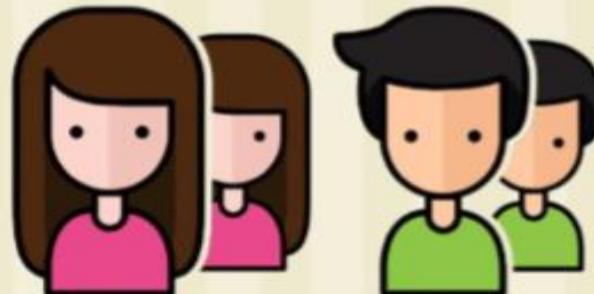

Contoh

Analy*e akan mencari mana-mana perkataan yang berkaitan dengan

analyze, analyse (s,z)

Wom?n akan mencari mana-mana perkataan yang berkaitan dengan

women, woman (e, a)

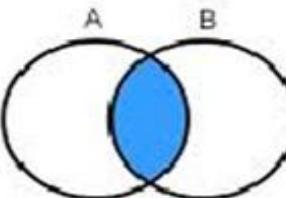

4. Boolean Operator

Boolean operators are **logical search** operators that allow you to **narrow** or **broaden search**.

sector innovation to existing theories based on system and complexity. This essay aims to contribute to filling this gap with the development of a theoretical framework focused on the relation of organizational capabilities and public value generation in a systemic context. We discuss that the concept of Dynamic Capabilities - Sensing, Seizing and Transforming - is adherent to analyze public sector innovation, especially open innovation in government. In this context, the development of these organizational capabilities contributes ...

LANGKAH 3

The screenshot shows a research paper titled 'Open Innovation in the Public Sector' by Leonardo Ferreira de Oliveira and Carlos Denner dos Santos Junior. The paper is from Springer Proceedings in Complexity, volume 458-466, doi:10.1007/978-3-319-96661-8_47. The Sci-Hub logo is visible on the left. The paper's abstract discusses innovation in the public sector, noting a lack of attention to linking it to existing theories based on system and complexity. The paper is presented in a PDF viewer with a dark theme, showing page 1 of 9. The Windows taskbar at the bottom shows various pinned icons.

Open Innovation in the Public Sector

Leonardo Ferreira de Oliveira^{1,2}(✉) and Carlos Denner dos Santos Junior¹(✉)

Abstract. Innovation in the Public Sector has been seen as a way to respond the current challenges posed to society. However, the literature shows that little attention has been given to link public sector innovation to existing theories based on system and complexity. This essay aims to contribute to filling this gap with the development of a theoretical framework focused on the relation of organizational capabilities and public value generation in a systemic context.

Welcome Resumé Research Publications Resources Cygna Blog ToC Shop

Are you applying for tenure, promotion or a new job? Do you need to prepare for your performance appraisal? Publish or Perish is designed to help individual academics to present their case for research impact to its best advantage, even if you have very few citations. You can also use it to decide which journals to submit to, to prepare for a job interview, to do a literature review, to do bibliometric research, to write laudatos or obituaries, or to do some homework before meeting your academic hero. Publish or Perish is a real Swiss army knife.
